WORK EXPERIENCE

Aubergine Solutions, India   *Aug 2022 – June 2023*
Software Engineer-II

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
- Improved and expanded project platforms using JavaScript to develop rich User Interfaces.
- Communicated with product managers and UX designers to translate project requirements and business objectives into polished user interfaces.
- Built highly functional web applications using JavaScript, HTML and CSS.
- Drove UI requirements through to implementation, complete with accurate sizing estimates and task breakdowns.
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Collaborated with clients to define solution requirements.
- Interfaced with front-end and back-end development teams to develop a unified product, smoothing out coding conflicts before problems arose.
- Performed quality code review and removed technical debt and security vulnerabilities.

Appit Ventures, India   *Apr 2020 – Jul 2022*
Web Developer

- Created web applications based on React, integrating Facebook's best practices for interface design.
- Participated in all the phases of the application development including requirements Design, Coding and Testing
- Experience in RESTful web services to integrate between server side and client side
- Worked on creating components, directives, services and routing in Angular 12 for better component communication by sharing the code between the components.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Revised, modularized and updated old code bases to modern development standards, reducing operating costs, and improving functionality.
- Collaborated on stages of the systems development lifecycle from requirement gathering to production releases.

Suraaga Technologies, India   *Mar 2019 – Feb 2020*
Full Stack Developer

- Worked on ReactJS, AntDesign, Redux, NodeJS, Koa Framework, PostgreSQL, MongoDB
- Developed a web-based application focused on gaming concept for assessing user skills
- Participated in all phases of application development including design, coding, and testing
- Implemented a reward system for user completion of topics and levels
- Configured coins, points, and badges for user motivation and progression.
- Managed development milestones from initial steps through final delivery.

EDUCATION

Humber College, Canada   *Sep 2023 – Apr 2024*
Post Graduate Diploma in Web Design and Development

Andhra University, India   *Aug 2014 – Jun 2018*
Bachelor of Technology: Information Technology

ACHIEVEMENTS

- Received positive client feedback for delivering a project ahead of schedule and exceeding quality expectations.
- Successfully resolved a critical technical issue, minimizing downtime and ensuring the uninterrupted operation of key systems.
- Received recognition for outstanding leadership during a challenging project, earning the "Team Player" award.
- Ranked 3rd among 500 students in an aptitude test held at college.

KEY SKILLS

• React Development • Angular Development • Leadership • Collaboration • Adobe XD Prototyping • Responsive Web Design
• HTML & CSS
